No. 258.—The following resolution of the Government of India is republished:—

HOME DEPARTMENT.

POLITICAL.

Delhi, the 18th December 1914.

No. 2851-2864.—In supersession of the orders contained in the Resolution of the Government of India in the Home Department, No. 2331-2842, dated the 8th December 1898, the Governor-General in Council is pleased to issue the following instructions with regard to certificates of identity.

2. Every native of India who contemplates proceeding out of India to foreign countries is strongly urged, before leaving, to furnish himself with an authoritative certificate of identity, in the form appended to this Resolution, signed by the head of the district (in a Presidency Town and in the town of Rangoon, the Commissioner of Police) in the case of residents of British India, and by the Political Officer in that of residents of Native States. In the case of a student the certificate should be signed by the head of his last school or college and countersigned by the District Officer (in a Presidency Town and in the town of Rangoon, the Commissioner of Police) or Political Officer as the case may be.

Appeals for assistance by destitute Indians who desire repatriation and by students who owing to embarrassed circumstances, are unable to complete their course of education cannot be dealt with satisfactorily unless the parties are in a position to produce evidence of identity. The possession of a certificate of identity will be specially useful to young men of good family, as it may enable the Secretary of State to obtain for them social and other attentions.

Those who are desirous, however, of travelling in countries where a passport will be necessary are advised to furnish themselves with such a document also before leaving India, in lieu of, or in addition to, a certificate of identity. It should be remembered that no person is entitled to a passport, as of right, on the ground that he is a British subject, and the production before authorities outside India of a certificate of identity, unless supplemented by documentary evidence of respectability, is not sufficient to ensure that a passport will be granted.

Form of Certificate of Identity.

1. Name of applicant_____

2. Father's name and caste_____

3. Residence_____

4. Age of applicant_____

5. Nationality of applicant*_____

6. Social or pecuniary status of father or (guardian)_____

7. Date or probable departure of applicant from India_____

8. Object of applicant's visit to England (Europe)

Signature of District Officer (in a Presidency Town, the Commissioner of Police or Political Officer, or head of school or college.†)

*Dated*_____

* I.e., whether a British subject by birth or by naturalisation (or a subject of a Native State).

† Countersignature of the District or Political Officer should be obtained to certificates signed by heads of schools or colleges.

NOTE.—Holders of certificates of identity intending to apply subsequently in England or elsewhere for a passport to visit a foreign country are warned that no person is entitled to a passport as of right on the sole ground that he is a British subject. No. 310.—In G.O. No. 1125, P.H., dated 6th August 1924, revised directions were issued for the use of vaccine lymph by vaccinators throughout the Presidency As the attention of the Government has recently been drawn to the fact that vaccination work is still in many cases being done very carelessly and inefficiently, the Director of Public Health has been requested to issue detailed instructions for the guidance of the vaccination staff in order to ensure greater care and efficiency in the work. A copy of these instructions which have the approval of the Government is appended to this order The Government consider that if vaccinators comply with the detailed directions given by the Director of Public Health the number of failures in vaccination operations should be reduced to a minimum.

2. The Government are also of opinion that, if real improvement is to be effected in the administration of vaccination, the Director of Public Health must have the co-operation of all local bodies. The instructions embodied in the appendix to this order are intended for the guidance of vaccinators, who are paid and controlled by the local bodies. All local bodies are therefore requested to see that the directions now issued for the use of vaccine lymph are carefully observed by the vaccinators during their work.

3. The publication of the most elaborate set of instructions is however not likely to produce a marked improvement in the work, if local bodies continue to employ unqualified and ill-equipped vaccinators. The Government have already referred to local bodies for their opinion the question of increasing the scale of pay of the vaccination staff and have separately under consideration the question of improving its efficiency.

4. The attention of all Collectors is drawn to the revised directions now issued and they are requested to instruct the village headmen to co-operate in the work by keeping the vaccination registers up to date and by collecting the children, when required, for vaccination and inspection.

APPENDIX.

Revised Directions for using Vaccine Lymph.

(5) North Arcot, Chittoor, Chingleput, Ramnad and Kistna.	5th, 11th, 21st and 27th.

Under this arrangement vaccinators may possibly wait for their second supply and then use up two supplies together, and might escape detection as Health Inspectors are not always in the same town as their vaccinators As there is still a tendency not to use the vaccine as soon as it is received, vaccinators should be ordered to submit nominal registers of vaccination immediately after finishing their supply. In all cases of delay a severe penalty should be imposed as it is most important that all supplies of lymph should be used promptly. District Health Officers will be expected to take steps to ensure that this is done by the vaccinators in their districts

2. All indents for vaccine lymph must be in multiples of 20 doses The issue of lymph from the King Institute will ordinarily be in tubes containing 20 doses each. In special cases tubes

containing 10 doses will also be issued, but this smaller tube should not be usually required.

3. The vaccine is sent out from the King Institute of Preventive Medicine, Guindy, in glass tubes.

These tubes are labelled to show

(*a*) the lymph number;

(*b*) the number of cases which can be vaccinated with the contents;

(*c*) the date of despatch; and

(*d*) the period beyond which the vaccine must not be used. This period is fixed as a maximum for inaccessible places, but to ensure good results every effort must be made to use the vaccine expeditiously.

4. *Deviations from fixed programme.*—These shall be sanctioned as a rule only by District Health Officers who shall give timely notice of the same to the Director, King Institute, Guindy. Under extraordinary circumstances, as for example, when the vaccinator is taken ill or when he has to go on leave suddenly, intimation of deviations from the programme may be sent direct to the Director, King Institute, to stop the lymph supply, and a copy of the intimation shall, at the same time, be submitted to the District Health Officer. The latter shall scrutinize all such deviations carefully and when the programme has been changed without sufficient and proper reasons, he shall take suitable steps against the vaccinator

II.—General Instructions.

1. A vaccinator's equipment should consist of the following articles:—

(*a*) A vaccine carrier.

(*b*) Two rotary lancets in a wooden box.

(*c*) Absorbent wool in sufficient quantity.

(*d*) One wooden holder for vaccine vials and instruments.

(*e*) A sterilizing set consisting of

(i) a brass spirit lamp;

(ii) methylated spirit in sufficient quantity;

(iii) a tripod stand with detachable legs;

(iv) an aluminium pot.

(*f*) A box of matches.

(*g*) Six towels.

(*h*) A cake of soap.

(*i*) A canvas bag with shoulder strap to hold the equipment.

(*j*) A bench, stool or a plank on which to arrange the articles.

(*k*) A wide-mouthed metal or enamel vessel to hold clean water.

2. All apparatus must be kept in a good state of repair and should be inspected at frequent intervals by the Health Inspectors. They should report any deficiencies to the District Health Officer and have the equipment where necessary renewed. The rotary lancets must always be kept clean and the teeth sharp. Repairs to lancets should be promptly attended to

3. Vaccination should be performed in a clean and shady place, such as the village chavadi, or under a large tree.

4 The children to be vaccinated should, whenever possible, be collected before commencing the operations.

5. Each vaccine vial contains more than sufficient lymph for the number of cases noted on the label. The vaccinator should first satisfy himself that there has been no leakage during transit and that the vial contains the full quantity of lymph. If he has any reason to suspect that the tube has been damaged, he should return it *unopened* to the Director, the King Institute, Guindy.

III.—Protection and Care of Lymph.

Vaccine lymph deteriorates rapidly when exposed to heat and light. Care should therefore be taken to protect the lymph from the direct rays of the sun The lymph should be kept in a cool dark place, when not in use. To prevent the lymph from being exposed to the warmth of the body the tubes should not be kept in the coat pocket or be held in the hands for any length of time but should always be carried in the vaccine carrier specially provided for the purpose.

IV.—Preliminary Preparation.

1. After the children have been collected, the vaccinator should arrange his equipment on a bench, stool or a plank placed in the shade.

2. He should set up the sterilizing set and with the aid of the spirit lamp bring to the boil some clean water in the aluminium pot. It may be necessary to replenish the water during the course of the day's operations. It should be seen that water is kept boiling all the time

3. The vaccinator should then wash his hands thoroughly with soap and water, and dry them with a clean towel.

4. He should next sterilize both ends of the lancets by dipping them in the *boiling water* for one minute, and leave them to dry and cool on the wooden holder, without bringing the sterilized portions of the instruments in contact with the wood The two lancets should be used alternately one for each individual and should be sterilized and cooled before each individual is vaccinated.

5. After all the preliminary arrangements have been made, the vaccine vial should be taken out of the carrier, and fixed in the socket made for the purpose in the wooden holder.

6. The vaccinator should then proceed to wash the arms of children with soap and water, and dry the portions washed with a clean towel The whole secret of successful vaccination lies in the thorough cleansing of the skin. Not more than three children should be taken at a time, as it is essential that the arms that have been washed should not again be exposed to dust and dirt

V.—Vaccination.

1. The vaccinator should then take the lymph vial out of the wooden holder and shake it well, before opening it.

2. He should then gently rotate the cork and break the seal. The cork should then remain only lightly inserted in the vial, so that its subsequent removal may be facilitated.

3. The vaccinator should hold the tube in his left hand, and the lancet with the thumb and index finger of the right. With the aid of the other fingers of the right hand he should remove the cork and with the scoop end of the lancet take out a scoopful of lymph. While this is being done, the inner end of the cork must not be allowed to touch anything. The cork should be inserted immediately, and the tube replaced in the wooden socket. The object of this procedure is to ensure that the tube is not kept open too long and that the lymph is not exposed to air and dust

while the scoopful is being taken out of the vial. One scoopful should be sufficient for two insertions. The lymph should be applied with the convex side of the scoop in two places one inch apart, on the outer aspect of the arm of the child. Taking a gentle hold of the child's arm from behind and slightly stretching the skin, the vaccinator should then apply the toothed end of the lancet on the skin through each drop of lymph and rotate it to the right and to the left with a slight pressure so as to produce a light circular cut. Care should be taken that the cut is of the same depth over the whole circumference of the circle; it must not be so deep as to cause bleeding. With the scoop end of the lancet, the lymph should then be rubbed well into the scarifications.

4. The lancet after use should be cleaned by being wiped on a clean cloth or a piece of clean blotting paper and should then be sterilized. On no account must sand or earth be used for this purpose. The cleaning and sterilization of the lancet must be done between each operation.

5. Every child should be vaccinated on both arms, four insertions being made in all.

6. In re-vaccination cases, scarification should not be done on the sites of old scars.

7. Once a vaccine vial has been opened, the contents should be used as far as possible in one place. Only one vial should be opened at a time. No lymph should be used later than four days after its receipt by the vaccinator.

VI.—PRECAUTIONS.

1. Vaccination should be performed invariably during the cool hours of the morning or the evening.

2. The vaccinator should examine every child before proceeding to vaccinate it to ascertain that it is in a good state of health. Children suffering from acute skin disease should not be vaccinated.

3. Vaccinated children should not be allowed to go away until the lymph has thoroughly dried; the period required is at least fifteen minutes and is often more. After being vaccinated the children's arms must not be exposed in any way to the sun.

4. Parents and guardians should be instructed not to wipe off the lymph, and should be watched to see that they do not do so. They should be told to keep the child's arms scrupulously clean and to preserve the vesicles intact once they have formed. They should be warned that the vesicles should on no account be covered with cowdung, ash, leaf paste or other similar objectionable applications and they should be informed of the dangers of such applications.

VII.—EXTRA INDENTS.

1. Vaccinators requiring vaccine for an extra number of cases should submit their indents to the Director, King Institute of Preventive Medicine, Guindy, Saidapet, Madras, through the Health Inspector and the District Health Officer, as in the case of deviations of programme. These indents should be made on the printed post-cards prescribed for the purpose. In urgent cases, requisitions for extra lymph may be sent direct to the King Institute. The instructions laid down in this office Circular D. No. 26-V., dated 15th April 1925, regarding extra indents should be strictly followed.

Extra Indent.

Please send to (post town) ..... sufficient vaccine lymph for ..... cases so as to reach me .....

(Signature)

STATION, ... *Class Vaccinator,*

Dated ..... 192 . *Range,* ..... *District.*

These extra indent post-cards can be obtained from the District Medical and Sanitary Officer, / District Health Officer.

2. A statement in the prescribed form should be sent every month to the Director of the King Institute by the Health Inspectors through the District Health Officer after the cases have been inspected. The necessary forms are supplied by the King Institute.

3. Vaccinators are forbidden to use vaccine beyond the period marked on the tube. This period is calculated so as to give vaccinators four clear days during which to use the vaccine. The observance of this rule must be regarded as imperative. If any vaccine remains unused at the end of the specified time, it should be returned to the Director, the King Institute of Preventive Medicine, by letter post, in the box in which it was received. A statement of the reasons for the failure to use the supply should be enclosed.

4. Where it is evident that either the vaccine has been negligently exposed to the sun or to great heat or where the operation has been carelessly carried out or the vaccinators have deliberately delayed commencing work for several days after the receipt of a supply, the District Health Officer should recover the cost of the vaccine at the rate of 6 pies per case. Such recoveries should be remitted to the treasury and credited to the Government under "XXIII P.H., Public Health Receipts—Mis., other items" and the treasury receipts obtained and forwarded to the Director, King Institute, Guindy.

GOVERNMENT TRAINING SCHOOLS IN THE WEST GODAVARI DISTRICT.

The District Educational Officer, West Godavari, hereby notifies that candidates of the Higher and Lower Elementary grades will be admitted for training in July 1928 in the Government Training Schools, Narsapur and Ellore.

2. The period of training is two years in the case of students of both the Elementary Higher and Lower grades.

3. The rate of provincial stipends sanctioned will be in accordance with the Madras Educational Rules.

4. The District Educational Officer, West Godavari, will make the selection on the recommendations of the Deputy Inspectors of Schools. Each Deputy Inspector should furnish the teachers whose names are recorded in the register maintained in his office, as per article 95 of the Inspection Code with forms of application for admission printed, cyclostyled or manuscript, and on receipt thereof from the candidates he shall select the applicants according to the instructions given infra. Candidates should be informed that they run the risk of losing their appointments or having their grants curtailed if, after selection, they fail to join the training school on the 1st July 1928.

5. Two separate lists—one for the Higher Elementary candidates and the other for the Lower Elementary students—and that for each training school must be consolidated in the office of the Deputy Inspector and submitted with a tabular statement containing the following particulars about each candidate.—

(1) Serial number, (2) name in full; (3) age on 1st July 1928; (4) caste or race; (5) present appointment; (6) length of service as teacher; (7) educational qualification; (8) language; (9) guarantee of the manager for providing this applicant with an appointment after training; (10) whether a stipend is desired; (11) remarks.

N.B.—Under column (4) must be given the particular caste to which they belong. An entry like "Christian of Panchama origin" has no meaning and such applications from the candidates of the depressed classes cannot be considered. Under column (7) must be given (a) public examinations passed with year and number of certificate, or (b) transfer certificates held, or (c) school-leaving certificates held, or (d) nature of sessional school certificate held with number and date or (e) in the absence of any of the foregoing a certificate from the Deputy Inspector of the range to the effect that the candidate's educational qualifications entitle him to admission. Higher Elementary students should possess a Lower Secondary Examination certificate or a transfer certificate of having secured promotion from the Third Form, or an Elementary School-Leaving certificate of having successfully completed the course of instruction in the eighth standard.

6. The tabular statement should contain the names of the candidates in the order in which the Deputy Inspector desires that the selection should be made, and they should be selected with reference to their service as teachers, the need for their training, age, the school from which they apply, their qualifications and the nature of the appointment held by them. The attention of the Inspecting officers is directed to Madras Educational Rules 113 and 114. It is expected that each Deputy Inspector's list will contain at least ten names for each grade. It should ordinarily include only the names of persons actually engaged in teaching.

7. Teachers employed permanently in local board schools will not be paid any stipends from provincial fund. If there is any provision in the local fund, or the municipal budget under stipends to teachers, applications may be obtained from such teachers with the consent of the president, taluk board, or the chairman of the municipal council, as the case may be, and submitted with a separate list for each training school and for each grade. Clear information should be furnished regarding the nature of the appointment held by them (permanent, *sub jure*, or acting as the case may be).

8. A true copy of the certificate of general education of each candidate attested by the Deputy Inspector concerned should be attached to the application. The original certificate should be produced when the candidate is selected. Separate sondnot certificates need not be submitted by the candidates whose applications are signed by the Inspecting officers, or presidents of local boards.

9. Every student will be on probation for fifty working days.

10. Supplemental lists will not be considered after the prescribed date on any account.

11. The lists, completed in every respect, and the applications must be submitted by the Deputy Inspector to this office on or before the 1st May 1928 without fail.

Offg. District Educational Officer, West Godavari.

THE PATENT OFFICE, 1, COUNCIL HOUSE STREET, CALCUTTA.

PUBLIC ROOM, OPEN 11 A.M. TO 4 P.M. ON WEEK DAYS; SATURDAYS, 11 A.M. TO 1 P.M.

All communications relating to applications for patents and for registration of designs under the Indian Patents and Designs Act (II of 1911), or in continuation of applications under the Inventions and Designs Act (V of 1888) must be made in English and addressed to the Controller of Patents

and Designs, 1, Council House Street, Calcutta. Documents sent by post should be carefully packed and a *full address* given in all communications

1. *Directions* for the guidance of inventors and others are given in the Patent Office Handbook (price one rupee) which contains the Indian Patents and Designs Act, 1911, the Indian Patents and Designs Rules, 1912, the Indian Patents and Designs (Temporary Rules) Act, 1915, the Indian Patents and Designs (Temporary) Rules, 1915, the Indian Patents and Designs (Amendment) Act, 1920, and the Indian Patents and Designs (Temporary Rules) Amendment Act, 1920, together with current regulations and instructions. *These should be consulted before an application is made to the Controller of Patents and Designs, 1, Council House Street, Calcutta.*

3. *Advice*.—The Patent Office cannot undertake (1) to give opinions on the interpretation of Patent Law, or on the advisability of protecting inventions and designs or on their infringement; (2) to make searches in respect of information available in the public room; (3) to recommend any particular Agent, or (4) to assist in the disposal of inventions. Models are not required unless specially asked for. Drawings must be on tracing cloth and the Rules and Instructions for the preparation of drawings as given in the Handbook should be strictly followed. A provisional patent cannot be secured under the Indian Patents and Designs Act, 1911.

4. Applicants are warned that the Indian Patents and Designs Act, 1911, is in force in British India only, and patents granted under it do not extend to the United Kingdom or any of the British Possessions. The International Convention for the Protection of Industrial Property does not include India. For information regarding patents in countries other than India, applications should be made on the patent offices in the countries concerned.

5. *Fees* are payable in cash and cannot be received in the Patent Office within the time allowed by the Acts. When cheques are offered in payment of fees, it must be clearly understood that the office cannot hold itself responsible for any delay that may occur in the collection of cash on the cheques; any cheque not payable in Calcutta is subject to commission for which due allowance should be made. In cases where it is not possible to have the fees handed in at the Patent Office, it is preferable to send them by money-order or postal order payable at Calcutta to the Controller of Patents and Designs, and to advise him that they have been so sent. Stamps will not be received in payment of fees.

6. *Trade and property marks and names* are not registered and *medicines* are not patented under the Indian Patents and Designs Act. There is no provision of law in British India for their registration. Neither does this Act deal with *pictures, photographs, etc.*, for which copyright is obtainable under the Indian Copyright Act, 1914.

Council of State
Bill No. 2 of 1928.—Indian Succession (Amendment) ... 141

Bills introduced in the Council of State and Legislative Assembly, Reports of Select Committees presented to the Council and Assembly and Bills published under Rule 18 of the Indian Legislative Rules.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

The following Bill was introduced in the Council of State on the 17th March 1928:—

No. 2 of 1928.

A Bill to amend the provisions of section 33 of the Indian Succession Act, 1925.

XXIX of 1925.

WHEREAS it is expedient to amend the provisions of section 33 of the Indian Succession Act, 1925, so as to provide more liberally for the surviving widow or husband where there are no lineal descendants in the case of a total intestacy; It is hereby enacted as follows:—

Short title.

1. This Act may be called the Indian Succession (Amendment) Act, 1928.

Amendment of section 33, Act XXIX of 1925.

XXIX of 1925.

2. To clause (*i*) of section 33 of the Indian Succession Act, 1925 (hereinafter referred to as the said Act), before the words "If he has left no lineal descendant" there shall be prefixed the words "Save as provided by section 33A".

Insertion of new section 33A in Act XXIX of 1925.

3. After section 33 of the said Act the following section shall be inserted, namely —

Special provision where intestate has left widow and no lineal descendants.

"33 A. (*1*) Where the intestate has left a widow but no lineal descendants and the nett value of his property does not exceed five thousand rupees, the whole of his property shall belong to the widow.

(4) Where the nett value of the property exceeds the sum of five thousand rupees, the widow shall be entitled to five thousand rupees thereof and shall have a charge upon the whole of such property for such sum of five thousand rupees, with interest thereon from the date of the death of the intestate at 4 per cent per annum, until payment.

(5) The provision for the widow made by this section shall be in addition and without prejudice to her interest and share in the residue of the estate of such intestate remaining after payment of the said sum of five thousand rupees, with interest as aforesaid in the same way as if such residue had been the whole of such intestate's property.

(6) The nett value of the property shall be ascertained by deducting from the gross value thereof all debts, and all funeral and administration expenses of the intestate, and all other lawful liabilities and charges to which the property shall be subject.

(7) This section shall not apply—

(a) to the property of any Indian Christian;

(b) unless the deceased dies intestate in respect of all his property."

STATEMENT OF OBJECTS AND REASONS.

When the first Indian Succession Act was passed in the year 1865, under the English law as it then existed, a widow in the case of the intestacy of her husband, where there were no lineal descendants, took one-half of his property if there were children. This is the rule contained in section 27 of the Indian Succession Act, 1865, now reproduced in section 33 of the Act of 1925. By the Intestates Estates Act, 1890 (53 and 54 Vic., cap 29), the law was altered and the whole estate went to the widow if it did not exceed in value £500 and the intestate left no lineal descendants. Furthermore, in any case where there were no lineal descendants on such an intestacy even if the property exceeded £500 in value, the widow was given a charge on the whole property up to £500. In connection with the Bill to consolidate the law relating to succession which has since been passed attention was drawn to the difference between the law in England and in India. The Bengal Chamber of Commerce, the Solicitor to the Government of Bengal and the Administrator General all consider that there is a case for amendment. The present Bill adopts the more liberal rule of the English law. It only need be added that, in view of section 35 which provides that a husband surviving his wife has the same rights in respect of her property on her intestacy as she has on his, it will confer the same benefits on the widower as the Bill expressly confers on the widow. It is suggested there is no ground for differentiation, and this result is in accordance with the general tenor of the Indian Act.
